Look closely.
You'll love what you see.

So many cool things. All in a little Moxi™.

Unlike other Canal Receiver Technology (CRT) products, with Moxi there is no compromise in features or performance. You get an ultra-small BTE packed full of features to fit all hearing losses from mild to severe!

	Indigo™ Moxi	Element™ 16 Moxi	Element 8 Moxi	Element 4 Moxi

Manual Programs	3	3	3	3

In addition, all Moxi instruments feature:

The widest fitting range available – a choice of two receivers allows you to fit hearing losses up to 95dB!

312 battery – users appreciate the longer life of a size 312 battery.

OnBoard™ Control – configured in software, patients may choose to use the push button as either a volume control or a program memory button.

Automatic phone solution – with a choice of telecoil or microphone input.

The best value available – at 4 price points, there is a Moxi for every lifestyle and budget!

It's time to get a little Moxi!
